Manufacturer of Postforming and Laminating Machinery

## Features that give Edgetech Countertop Saws the Edge

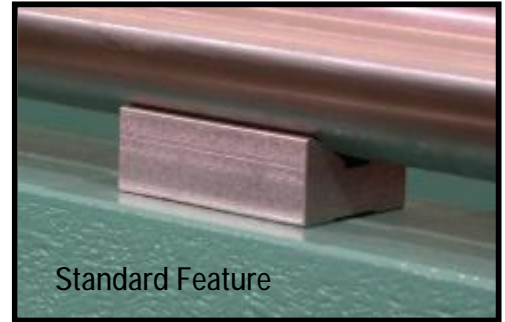

Standard Feature

Rugged frame with welded gusset supports on base

Optional Feature

Dual Laser shows the exact location & width of cut, eliminating any doubt of where the cut will be made.

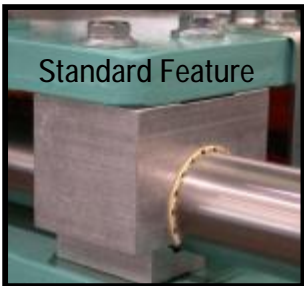

Standard Feature

All pillow block locations on upper frame are CNC machined for flatness to ensure precise rail alignment

Standard Feature

PLC Control promotes safety

Standard Feature

Maintenance free, long life DryLin® Bearings

All saws are tested and fully aligned prior to shipment.

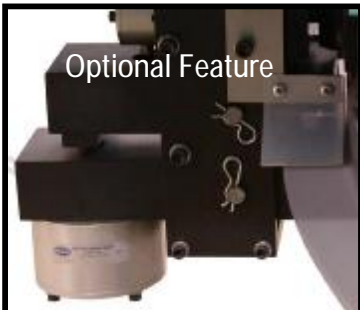

Standard Feature

UHMW fence pads for mar free bartop alignment

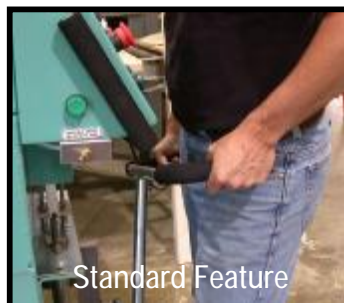

Standard Feature

Pneumatic safety gate & rotating router guide pin

Optional Feature

Compare our ruggedly built Variable Mitre Brake

Standard Feature

Cushion grip router handle - open design

Standard Feature

Choice of Variable Speed in either direction

These are just some of the features that Edgetech has incorporated into our countertop saws. We would appreciate the opportunity to visit with you about how these and other features of the Edgetech saw make it the best choice in the industry.
